

YELLOWMARK™ MOTOR GRADER CUTTING EDGES

THE RIGHT FIT

**FOR YOU,
YOUR MACHINE—
AND YOUR BUDGET**

**No one understands
your machine like we do.**

Developed by Caterpillar and ready to buy from your local Cat® dealer, Yellowmark™ motor grader cutting edges are made from SAE 1084 steel to deliver a reliable solution at a lower cost.

Designed specifically for small and medium-sized motor graders, Yellowmark cutting edges are manufactured for (but not limited to) construction applications – and are especially well suited for sandy soil or lower-impact applications such as finish grading and snow removal.

YELLOWMARK

A Caterpillar Brand

YELLOWMARK™ MOTOR GRADER CUTTING EDGES

Why choose a Yellowmark™ Motor Grader Cutting Edge?

- A lower cost option designed with construction and governmental customers in mind.
- Available through your Cat® dealer.
- Backed with the standard Yellowmark parts warranty (See your dealer for complete warranty details).
- Standard highway 12" bolt pattern that fits most makes of Cat and competitive motor graders.
- Curved double bevel design for excellent penetration.
- Rust preventative coating for extended, rust-free storage.
- Countersunk bolt holes to protect bolt heads.

Yellowmark Cutting Edges

Offered in sizes ranging from 5' (1524 mm) to 14' (4267 mm) in length with varying thickness, width and bolt size.
